PROFESSIONAL SUMMARY

Product Designer with 2+ years of experience designing user-centred digital products across gaming, e-commerce, and education. Uniquely combines UX/UI expertise with front-end development knowledge (HTML, CSS, Git), enabling faster design-to-engineering handoffs and technically feasible solutions. Skilled in end-to-end design - from user research and usability testing to high-fidelity prototypes - with demonstrated ability to translate complex user problems into intuitive, accessible interfaces aligned with business goals. Currently diving deeper into accessibility as a specialisation.

WORK EXPERIENCE

UX/UI Designer | Echobitstech Nov 2025 – Apr 2026

- Collaborated with cross-functional teams (engineering, product, QA) to deliver design solutions within sprint cycles, reducing back-and-forth handoff time by streamlining Figma component documentation
- Translated qualitative and quantitative research findings into actionable design decisions, directly improving product usability across 2 active features
- Created wireframes, interactive prototypes, and high-fidelity mockups in Figma; maintained a shared design system ensuring visual consistency across the product
- Supported design-to-dev handoffs with annotated specs and developer-ready assets, contributing to on-time feature delivery
- Continuously improved product usability by identifying UX friction points through usability reviews and proposing iterative design solutions

Product Designer (Contract) | Cephei Gaming Platform Dec 2025 – Feb 2026

- Led end-to-end redesign of core gaming interfaces for a live gaming platform, improving navigation clarity and increasing user immersion across 3 key interface areas
- Collaborated directly with engineering team to validate feasibility of complex interactive UI elements before finalising designs, reducing development rework
- Designed streamlined user flows for game onboarding and content discovery, reducing user drop-off at key entry points
- Delivered production-ready assets and interaction specifications within a 3-month contract engagement

UX/UI Designer | ZMinds Feb 2024 – Apr 2024

- Conducted user research including interviews and usability testing to identify pain points and validate design decisions
- Designed wireframes and mockups translating research insights into testable design solutions

KEY PROJECTS

Ma Amaka — Accessible E-Commerce App (WCAG 2.1 Compliant)

- Designed an e-commerce application tailored for visually impaired users, applying WCAG 2.1 accessibility standards including screen reader compatibility, sufficient colour contrast, and keyboard navigation throughout

AKUM — Student Course Registration Platform

- Designed an end-to-end course registration system for AKUM students, reducing registration friction through streamlined user flows and intuitive information architecture

PlanetCred — Climate Action Documentation Platform

- Designed a platform enabling climate actors to document, track, and share environmental actions; focused on data clarity and user motivation through structured UI patterns

SKILLS & TOOLS

Design Tools	Figma, FigJam, Notion, BallPark Forms, Google Suite
UX Research	User Research, Usability Testing, Journey Mapping, Competitor Analysis, User Flows, Affinity Mapping
Design Skills	Wireframing, Prototyping, High-Fidelity Mockups, Interaction Design, Sitemap Design, Responsive Design, Design Systems
Accessibility	WCAG 2.1, Screen Reader UX, Colour Contrast, Keyboard Navigation, Inclusive Design
Front-End Dev	HTML5, CSS3, Git, GitHub, Version Control (unique differentiator for engineering handoffs)
Methodologies	Design Thinking, Human-Centred Design, Agile / Sprint-Based Workflows
Soft Skills	User Empathy, Stakeholder Communication, Cross-Functional Collaboration, Adaptability, Problem-Solving
